

Objective of the Session on Government Accelerator

- To introduce to participants the Government Accelerators methodology to find innovative solution to overcome challenges in a short period of time
- To emphasize and sensitize participants to the idea that the Government Accelerator innovative methodology holds the potential to support countries to identify SDGs challenges related to public services and to accelerate innovative ideas and plan practical solutions to overcome challenges.
- To conduct a hands-on exercise to demonstrate how the Government Accelerator can be implemented in practice

- **It is a platform for cross-sectoral government teams to address challenges and achieve ambitious periods.**
- **It focuses on accelerating the delivery of strategic programs, the development of policies and regulations, and enhancing Government services.**
- **Aims to rethink how Government works by introducing a unique model built on accelerated results, increased collaboration and innovation.**
- **Emphasizes the integration between local Government/authorities entities, the private sector, academic institutions, and civil society organizations with the purpose of driving innovation and ultimately achieving Government ambitious plans goals in a short time**

The Government Accelerator session will Assist Working Groups to Identify SDGs related Challenges and generate innovative ideas for strengthening the public service delivery: The Process;

Challenge Identification

- Region Specific SDGs related challenge identification (Education, Health, Gender, Environment)
- Simulation of root cause analysis of the different challenges

Planning Process

- Setting SMART goals
- Ideation & innovative solutions
- Agility & resilience in planning
- Strategic partners Identification

Public Engagement

- Public engagement methodology
- Open discussion
- Role playing of strategic partners feedback and reflection on the plan.

Expected Outcomes

- Challenges identified
- Innovative solutions to overcome the challenges
- Stakeholder & strategic partners identified
- Planning accelerated solutions for SDGs related challenges

Themes and Groups

Depending on the number of the participant and their profiles the following groups will be formed to discuss the following challenges:

Group one: On Gender: Accelerating the inclusion of women in the Public Sector Decision making positions.

Group 2: Securing the environment for future generations

Group 3: Reinforcing equity in the delivery of public services

Group 4: Ensuring and quality education for all

Basic frame for the Group discussions

- Each group will frame its discussion as follows
 - First identify the specific components of the challenges and list them
 - Second, List the possible causes of each of the challenges
 - Third, list the possible causes of the challenges
 - Fourth, list the possible solutions
 - Fifth, list the stakeholders that must be involved in implementing the listed solutions
 - Sixth: Discuss the limitations/obstacles that may hinder these stakeholders from implementating the solutions
 - Seven, Suggest ways of removing these obstacles

Note: This is an exercise.
