FOR PUBLIC ADMINISTRATION AND MANAGEMENT (AAPAM) INNOVATIVE  
MANAGEMENT AWARD (IMA)**

The African Association for Public Administration and Management (AAPAM) is delighted to announce a call for entries for the Innovative Management Awards (IMA), 2026. The AAPAM Innovative Management Award is a continent-wide recognition programme, designed to honour institutions, organizations, and ministries that have implemented innovative and locally driven approaches to enhance the delivery of public services across Africa.

The aims and objectives of the Award include the following:

- I. To acknowledge and showcase innovations in the public sector that serve as models for emulation.
- II. To elevate the profile and perception of the public sector in Africa.
- III. To encourage creativity and excellence in public service by recognizing organizations and individuals who develop effective solutions to specific administrative and management challenges.
- IV. To facilitate the sharing and adoption of best practices through innovations to strengthen public administration and management across the continent.

Since its inception in 2005, the IMA has attracted broad participation from African countries, reinforcing that innovation in service delivery is pivotal for a productive and high-performing public sector. The AAPAM IMA aligns with Agenda 2063 and the Sustainable Development Goals (SDGs), advocating innovation as a key driver for the transformation and modernization of African public services in support of sustainable development.

AAPAM invites submissions (in English, French, and Arabic) from ministries, departments, agencies, sub-national governments, MDIs, and universities across Africa on any institutional innovation that promotes best practices, excellence, professionalism, and improved service delivery, contributing to national development plans, AU Agenda 2063, and the SDGs.
